ATKey.Card NFC

Multi-function Biometric Card for Enterprises

- ✓ Security Key
- ✓ Digital Business Card
- ✓ PIV Smart Card
- ✓ Employee Badge

#Bio-tap to Login
Fast & Secure Authentication
Passwordless & Phishing-resistant

① Match Fingerprint

② Tap NFC Card

③ Login Account

Cross devices and platforms login is possible with ATKey.Card NFC, once the card is resisted to an account, user can use the card to access it again on any device.

*The device/platform needs to support FIDO2 NFC authenticator

Passwordless Biometric NFC Authentication

AuthenTrend collaborates with partners on the ATKey.Card NFC to deliver a seamless, passwordless biometric authentication experience while expanding the ecosystem for fingerprint-enabled cards
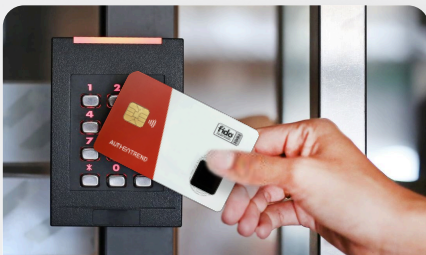

- **Bio-Tap to Login** - user login experience
- **Phishing-resistant MFA** for **Mac, Windows, IdP accounts,** and **web apps**
- **Fingerprint enrollment** via utility **SecurityKey NFC / SecurityKey Desktop**
- Integrate **PKI** and **FIDO2** into a single card for enterprise dynamic use cases

Safety And Convenience Can Coexist Harmoniously

By bio-tapping the NFC-enabled card against the NFC reader, users can log into devices and applications easily and securely, completing the multi-factor authentication in a single step.

Consolidate Office Card Requirements Into One Card

Door Access Control

With ATKey.Card NFC, employers can manage online and offline access without additional door badges.

Employee ID Badge

ATKey.Card NFC can be printed as Employee ID badges to integrate with company's existing practice.

Digital Business Card

ATKey.Card NFC can work as a digital business card, making networking easier and more eco-friendly.
