

ATKey.Card NFC

New Product

Create Modern Authentication Experience On Apple Devices For Enterprises

Work with major IdP/IAM services, including Google Cloud Identity, Microsoft Entra ID, Okta Identity Cloud, etc.

Jamf Connect Syncs Accounts, ATKey.Card NFC Eliminates Passwords

AuthenTrend collaborates with JAMF on device & user management for enterprise customers, strengthen the security with biometric hardware authenticator and eliminates the risk of passwords.

- Best user login experience: **Bio-Tap to Login**
- **Phishing-resistant MFA** for Mac, IdP account, and web application
- Integrate **PKI** and **FIDO2** in a single card for enterprise dynamic use cases
- Offer additional value-added functions in a single card for business

Safety And Convenience Can Coexist Harmoniously

Bio-tap the ATKey.Card NFC against the device, users complete the multi-factor authentication in a single step, log into devices and applications easily & securely.

#Bio-Tap to Login

- ✔ Reduce IT effort managing mac login activities
- ✔ Compatible with company's current IdP/IAM
- ✔ Secure web app login across Mac / iPad / iPhone
- ✔ Easy to onboard for the end user

Not Only Security Key, We Can Be More

Door Access Control

With ATKey.Card NFC, employers can manage online and offline access without additional door badges.

Employee ID Badge

ATKey.Card NFC can be printed as employee ID badges to integrate with company's existing practice.

Digital Business Card

ATKey.Card NFC can work as a digital business card, making networking easier and more eco-friendly.
