

# ATKey.Card NFC + Tapni For Business

AuthenTrend Partners With Tapni To Deliver  
Digital Business Card Solutions

## A Card For Enterprise Sustainability - Biometric Authentication & Green Networking

AuthenTrend partners with Tapni to make the ATKey.Card NFC a sustainable, eco-friendly solution that enhances security while reducing single-use paper

- **One card purchased, one tree planted** – with a Tree-Nation certificate of planting
- Reduce 3.6 kg of CO2 emissions per employee by issuing digital business cards
- Drive ESG impact by adopting sustainable practices in Environment, Social, and Security
- Create a phishing-resistant authentication experience with match-on-card fingerprint technology, ensuring privacy and cybersecurity

# Subscription Model Based On User Accounts

By subscribing to Tapni for Business, companies can centrally manage digital business cards, monitor team activity, generate leads, and easily follow up with customers through CRM integration.

## Enable #Bio-Tap To Connect For The Team In A Few Steps

### Step 1

Activate a subscription with a 30-day free trial and import users from IAM via integration

### Step 3

Pair and register the ATKey.Card NFC in the Tapni dashboard for each user, then send out the cards

### Step 2

Configure company and user profiles, including design customization and relevant information

### Step 4

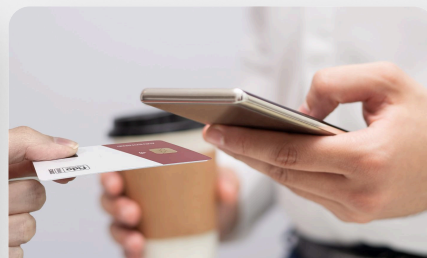

Monitor and track card usage, including visits, link clicks, and contacts received

## Consolidate Office Card Requirements Into One Card

### Security Key

ATKey.Card NFC supports FIDO2 and PIV protocols for the highest security login—anti-phishing and passwordless.

### Digital Business Card

ATKey.Card NFC can work as a digital business card, making networking easier and more eco-friendly.

### Door Access Control

With ATKey.Card NFC, employers can manage online and offline access without additional door badges.
